### and what have you

by BOB CRAIG

While in Austin over the weekend for the Texas Press Association's 10th annual ad meet we were paid a surprise visit by Senator Lyndon B. Johnson and his youngest daughter, Lucy Baines, along with a plane full of newsmen. The Sen. was on his way from a campaign trip up North to the 100th birthday of Stonewall where he took part in the jubilee.

Johnson appeared tired when he addressed the group in Austin. Being followed by that long line of the Nation's Newsmen which were with Johnson everywhere he went is enough in itself to make anyone weary.

Johnson told the ad men and publishers gathered there that America's small towns are one of the bastions of the free world.

"It is the community newspaper that holds the community together. It is the collection of communities in America that is holding the free world together today," he asserted.

The candidate for Vice Presidency of the United States struck out against the building up of the religious issue.

"It's not so important what church you attend on Sunday as whether those who believe in God prevail over those who believe there is no God," he said.

Johnson was in Austin just long enough to speak to us and then he left for his ranch for "a bowl of Texas chili" before going to the Stonewall celebration.

Later on in the evening, Dale Francis, columnist for "Our Sunday Visitor," national Catholic magazine, and editor of the "Lone Star Catholic" magazine spoke to the gathering on "Castro and Communism" where he stated that in spite of all of the talk pro and con there was nothing that the American government could have done to stop what happened in Cuba.

According to Francis, what is happening in Cuba now had its beginnings back in the forties when Castro was attending the University of Havana where he took up with the Communists.

The greatest danger to freedom lies in the failure to understand the methods used by the communist in their battle for world control, and that until we do we will see it happening all over the world, he proclaimed.

Francis predicted that within three months to a year there will be a revolution to overthrow Castro. When asked if it could succeed, he replied that if the United States stood firm and kept Russia from helping Castro it would.

In explaining how the communist took over in Cuba after the revolution, Francis pointed out that their first step is to neutralize the country's different factions and then while everyone is enjoying the peace and independence the communists gradually take over. He pointed out that that is what is happening in the Congo now, different in only that rather than coming in during a time of peace the communist are using the civil war as a neutralizer.

Francis said that after the revolution the U. S. offered blanket check to bring the country back to normal and later seeing that it was inevitable that there must be some kind of land reform and that the owners could get only a bond that might be good in 20 years the government offered to take the bonds and give the owners the money now.

He said that all of this was done quietly and that was a mistake. Our government should have made a big issue of it and Castro would have had to either accept or the Cuban people would have known him for what he is.

## Pipers To Host Merkel Friday at 8

The Pipers, rated fifth in the state in 2-A by the Fort Worth Star-Telegram, will play host to the Merkel Badgers here Friday night.

The Pipers have a 2-0 record after their decisive victory over Edgewood of San Antonio, 52-12 here Saturday night. The

Badgers were bumped by Albany last week, 22-0, in a game that was much closer than the score indicates. Albany is the second ranked 1-A team in the state.

The Badgers boost a big 170 pounds. To keep the backfield that averages over position from tightening up the line to stop their power the Badger quarterback, Lester Dorton, passes well and runs the keeper to the weak side to perfection.

Coach D. C. Andrews expects his boys to be in good shape for the contest and plans to use the same line-up he used last week.

The purple and gold from Merkel, coached by Carroll Benson, will probably use the following boys in their starting line-up: Ronnie Reager, 185-

pound tailback; Dorton, 155-pound quarterback; Phil Seymour, 180-pound fullback; Eugene Hester, 170-pound wingback; Pedro Ybarra, 147-pound left end; James Bible, 215-pound left tackle; Jimmy Sledge, 139-pound left guard; Jack Stallo, 157-pound center; Larry Dudley, 159-pound right guard; Tommy McAninch, 147-pound right tackle; and Jeff Smith, 144-pound right end. David Scott, 167-pounds, replaces Sledge part of the time.

After two weeks of action only Stamford and Hamlin own perfect records in district 2A-6. Spur has won one and lost one while Anson and Haskell have dropped both of their games.

## North Central Avenue Baptist To Hold Revival

Rev. C. D. McEntire, pastor of the Second Avenue Baptist Church of Abilene, will be the evangelist for a revival at the North Central Avenue Baptist Church to be held September 16-25.

Rev. T. M. Harrell, pastor, has announced that services will be held twice daily with morning services at 10:00 a.m. and evening services at 8:00 p.m., preceded by prayer meeting at 7:30.

Woody Northcutt, a student at Hardin-Simmons University, will direct the music.

The public is cordially invited to attend these services.

"Doc" Greif of Snyder. Brannan Contractors were represented by W. J. Brannan, president, and W. A. Williams, general superintendent.

The contract calls for approximately 18 blocks of city streets, consisting of 24 inch curb and gutter, grading, cement stabilized base and one course asphalt treatment complete in place.

Brannan said that the company will be on the job by a week from Monday (September 26).

Although it had been previously announced that over 20 blocks had been signed up for the paving, when the city checked the money and notes only 18 blocks were complete. Others are expected to be completed by the time the work is started.

## Nearly 100 Bales of Cotton Ginned

September 27, 1960

The second week of the cotton season has developed satisfactorily. Every gin has been receiving cotton this week and there will have been ginned nearly 100 bales. We have four good gins and every one is doing his best to meet every demand of the farmer.

Every person interested in the present and future welfare of Hamlin should be present at a meeting to be held at the Methodist church Sunday evening at 7:30 o'clock. All church services for the hour have been cancelled in order that one of the most vital and far reaching problems confronting our citizenship may be discussed. The children of today are the men and women of tomorrow. Their opportunities today determine their destiny. We have

an enrollment of over seventy children in one room in which less than forty can be seated comfortably. Three other rooms are so crowded that health of both pupil and teacher is endangered. Relief must come and come quickly or the progress and welfare of our children are to be greatly impaired. Every father and mother, and every tax payer owes it to himself to be present at this Mass Meeting.

The new gin is at work! Tuesday the G. H. McDonald Gin received and ginned its first bale of cotton. Mr. M. D. Kelley, of near Radium was the first one to get a bale delivered from the new gin. Sam Orr, of Abilene, is the manager, and W. B. Fletcher bookkeeper. This is one of Texas most up-to-date gins.

## Pipers to Open With Sweetwater 'B'

September 20, 1935

Despite the fact that they have been handicapped by a late start, a week of rain and an epidemic of colds, the Pied Pipers are rapidly rounding into shape for their first football game of the season, Friday, September 20. Coach E. A. Henning of Sweetwater, is bringing his "B" team over for a clash with the Pipers.

This is the first of a ten game schedule for the Pipers. Although there are but four lettermen left from last year, prospects are very bright for a winning team. More than forty boys are reporting regularly. The game will start at 3:30 o'clock. Admission will be 15 and 25 cents.

Mrs. Carl Young entertained the New Idea Club in her home Thursday afternoon, September 12.

After a short business meeting the club spent the time in

chatter and sewing. Iced melon was served to Mmes. Terrell, Ralph Bowman, L. O. Steele, Arthur Burns, and E. F. Fairley.

Mrs. W. L. Boyd will be hostess Thursday afternoon, September 26.

15 YEARS AGO—

## Producers Gin Destroyed by Fire

September 21, 1945

A lot can take place from Friday night to Monday morning. For example, last Friday night the Producers Gin closed down with a fine run for the first opening, with exactly 82 bales ginned. That was the last for that gin.

About 5:00 a.m. Saturday morning, fire was discovered enveloping the seed house, and taking in the whole gin. Nothing could be done to head it off, so the gin houses, seed

house, most of the engine room and 82 bales of cotton were burned to a complete loss.

Monday morning came, and by then the Producers were moving their bookkeeping and office supplies to the Pioneer Gin Plant, without a hitch. All that was necessary for a Producer customer was to read the sign and keep on driving till he stopped at the Pioneer Gin (known since 1907 as the Harden Gin, as well as the Pioneer Gin). The Producers closed the deal Sunday and just kept on ginning.

The Elementary Parent-Teacher Association will hold a social meeting in the High School auditorium Thursday evening, September 27, at 8 o'clock.

## STATE CAPITAL Highlights AND Sidelights by Vern Sanford

By VERN SANFORD  
Texas Press Association

AUSTIN—He will not try to muzzle anyone who wants to complain about the National Democratic Party Platform says Gov. Price Daniel.

But the state Democratic convention in Dallas Sept. 20 is not the place, said the governor, to debate pros and cons of the national platform. This convention, he said, is traditionally for the purpose of writing a state platform and certifying Democratic nominees for state office.

Edward J. Drake, chairman of the Dallas County delegation wrote the governor that the Dallasites would like to have a "full and factual" discussion of the national platform at the Sept. 20 meeting.

Governor Daniel said there

are planks in the National Democratic platform to which he is definitely opposed. But he said he didn't feel there was enough difference between the Democratic and Republican platforms to justify criticizing one without applying the same criticisms to the other.

Governor said he was definitely opposed to freeing Texas as Democratic election, as proposed by some, to vote for whom they please. He said he felt it was a matter of "simple integrity" for the Democratic electors to vote for the Democratic candidates if the party carries the state.

Since the Los Angeles convention, the governor's position has been to work for the Democratic ticket without endorsing the total platform.

SCHOOLS NOT PENALIZED—A ruling by Attorney Gen. Wilson has provided a way out for Texas Schools faced with conflicting state and federal orders regarding integration.

State law provides that a school system which integrates without approval of local voters loses state aid. Wilson ruled that this does not apply if the school is complying with a federal court order to integrate.

However, the ruling did not knock down the state law in question. Wilson said that the schools that are not under federal court order and integrate without approval in a local election would still lose state aid and accreditation.

Immediately affected were two large school systems—in Houston and Dallas—both of whom are under court order to begin gradual integration plans.

SALES TAX NEED SEEN—Next year's money will be so staggering the Legislature will have to resort to sales taxing, general or selective to keep the boat afloat.

This prediction is made by Sen. William S. Fly of Victoria chairman of the Texas Commission on State and Local Tax Policy. Fly was defeated in his race for re-election last May but contended his tax stand had nothing to do with it.

Those who do come back, said Fly, may face the need to raise as much as \$108,000,000 in new money. This is the estimated new revenue need if the Legislature enacts bills to raise teacher pay and provide medical aid for oldsters—both programs with wide popular support.

Latest report by the tax study group shows that Texas families are now paying less state taxes than the national average. Annual state tax bite on a theoretical "average" Texas family is \$115.89. Nationally, the "average" family pays a state tax bill of \$235.51 a year.

MEDICAL AID URGED—Legislation to provide state-federal payments for medical care for Texans on old age assistance has near-top priority on his list, says Governor Daniel.

He noted that there in state mental hospitals some 3,000 oldsters who are not really mentally ill, but who have no other place to go.

A medical aid program that would make possible the care of these people in nursing homes or their own homes would be "a great step forward," said the governor.

Enactment of such a program, he told the state wide Conference on Aging, is "near the top of the list of unfinished business of this administration."

He noted that a constitutional amendment to make such a program possible was approved by Texas voters nearly two years ago.

INVESTMENT EASING SOUGHT—State Board of Education will ask the next Legislature to pass a law allowing investment of some of the permanent school fund in co-operative stocks and bonds.

Object would be to obtain higher earnings from the \$400,000,000 trust and provide a hedge against future inflation. Investment in corporate securities has already been allowed under the law for the University of Texas permanent fund, but the public school fund is limited to government bonds.

Board of Education also went on record as favoring salary raises for Texas teachers, noting that teachers trained here are being lured away by higher salaries in other states. No specific amount was suggested for the raise.

YOUTH COUNCIL HARMONIZES—With past differences smoothed over, the Texas Youth Council is now in accord over the executive director's purchase of government surplus buildings.

Earlier, Council Chairman W. C. Windsor Jr. of Dallas had declared that Dr. James Turman did not have authorization to purchase the two buildings for \$230. Other two Council members backed up Turman. Windsor called a special meeting to look into the matter.

After conferences, with Governor Daniel also attended, Windsor announced he was completely satisfied.

Turman said he had been offered \$25,000 for one of the buildings purchased for \$150 but that the contract with the

government forbade such a resale.

One building is to be used to provide a classroom for Negroes at the Gatesville School for Boys and the other a lunchroom for the Gainesville School for Girls.

SHORT SNIRTS—August collections for the state wine, liquor and cigarette taxes totaled \$9,611,005, reports State Treasurer Jesse James. This is an increase of \$2,473,188 over August collections a year ago which was before tax increases went into effect. State general revenue fund ended the fiscal year last month with a deficit of \$34,572,407. Revenue for the year was \$1,252,298,961—an all-time high, but not enough. State Department of Agriculture has announced the beginning of a demonstration livestock auction market news program beginning Oct. 16. Two livestock auction reporters are now being trained under the direction of the U. S. Department of Agriculture.

## Rural Mail Carriers Distributing 1960 Acreage Cards

Postmaster Perry Sparks announced today that Rural Mail Carriers began distributing 1960 Acreage Survey Cards to patrons on their routes about September 14.

The Post Office and U. S. Agriculture Departments cooperatively make this survey each year. These reports, directly from farmers, are the basis for official estimates for Texas acreage of all crops harvested in 1960.

To be sure this community is well represented in the survey, Postmaster Sparks urges

each patron receiving a card on this project are Ira Clermonts, route one; Jack Russell, route two; and Harold Bonner, Route three.

AIRVIEW NEWS--

By MRS. ELMER JOINER

The deacons of the Fairview Baptist Church, with their families, met in the home of their pastor, Doyle Combs, Thursday night for supper and a business meeting. A covered dish dinner preceded the business meeting.

Those attending were Mr. and Mrs. O. L. Jenkins, Mr. and Mrs. Joe Ford, Mr. and Mrs. O. Gray and Dorothy, Mr. and Mrs. W. W. Goodwin and the hosts, Rev. and Mrs. Doyle Combs and children.

A good attendance in Sunday school was reported for last Sunday. Fifty-two persons were present at church service, which is a good crowd for our church, but you live in our community or anywhere within the reach of the Fairview Baptist Church, warm welcome will be yours when you attend any of their services. The rural churches are fighting for existence in a fast changing world, but they are still a good place to go on Sunday to worship.

# Pipers Maul Edgewood Of San Antonio, 52-12

The Pied Pipers scored 28 points in the first quarter Saturday night to take a commanding lead over the Red Raiders of Edgewood of San Antonio and were able to go from there to dump the 4-A school, 52-12. The Raiders, sporting a strong offense forced the Pipers to rely on fumbles, pass interceptions and blocked punts to stop their offensive drives.

Playing before a good Saturday night crowd, the Pipers took advantage of every Raider mis-que and scored swiftly when they came into possession of the ball.

The game grossed over one thousand dollars with over 1,200 paid admissions.

Outstanding defensive boys for Hamlin were: Gary Cooper, left tackle; Stanley Austin, linebacker; Gary Williams, linebacker; Robert Woodruff, middle guard; Bill Richey, right end; and David Bonds, left end.

Outstanding defensive boy for the Raiders was Garcia Cesar.

quarter the Raiders were forced to punt. The punt was blocked by Cooper and recovered by Bonds on the Raider 36 yard line. The Pipers moved the ball down to the two yard line in six plays from where Frankie Lee went over right guard for the first score. Lee's try for the extra two points failed.

Two minutes later Austin intercepted his first of two passes for the night and returned the ball 12 yards to the Raider 30. On the first play Bonds hit Bonds with a pass for the 30 yards and the score. Bonds passed to McCannies for the two extra points.

Bonds intercepted a flat zone pass nine minutes deep in the first quarter to set up the next score. Bonds passed to Lee for five yards and then handed off to Joe Ford who skirted end for the 15 yards and a touch-down. Bonds went in the end-zone on a keeper for the next two points.

With 15 seconds left in the first quarter Ford broke off tackle for a nice 30 yard run and the fourth TD of the first quarter. Cooper's kick for the point after was no good and the first quarter ended with the score 28-0.

Later in the second quarter the Pipers took over on their own 25 and in seven plays were on the Raider four. Bonds on the keeper crossed the double stripe and Cooper kicked the extra point.

After the half Bonds recovered a Raider fumble on their 16. Lee carried for four, Ford, eight, Austin one and the Bonds to Bonds combination was good for the final three yards and Cooper's kick was good.

With eight minutes left in the third quarter, Maurice Rodgers hit the middle of the line the Raiders, broke to the outside and raced 40 yards for the score, Johnny Villanueva carried in for the two points.

Two minutes deep in the fourth quarter the Pipers scored again with two passes by Bonds. The first to Lee was good for 20 yards and the second to Bonds was good for 26 yards and the score. Cooper kicked the point after.

Raymond Sanchez cut around his right end for the second Raider score, carrying the ball 27 yards. Villanueva again made the two points after.

With seven seconds left in the game and the ball in the Pipers' possession, Cooper kicked a 22 yard field goal from the Raider 12 yard line.

### Annual Letter Writing Week Set For October 2-8

The 23rd annual Letter Writing Week will be celebrated in Hamlin during the week of October 2 to 8, it was announced today by Postmaster Perry Sparks.

Postmaster Perry Sparks noted that there has been a revival of personal letter writing during the last few years. "A letter remains the most economical, longest lasting, and sincerest means of extending

greetings, communicating social news, and exchanging ideas," the postmaster said.

During Letter Writing Week, Postmaster Perry Sparks suggested that individuals write at least two letters: one to a friend or relative from whom you have not heard in a long time, and the second as a reply

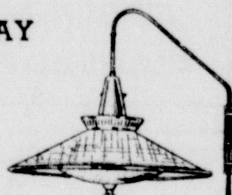

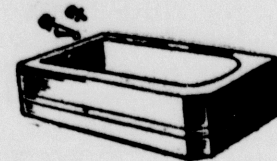

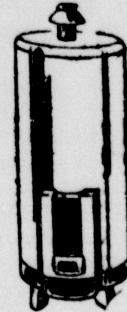

THE HAMLIN HERALD

to a friend or relative who recently wrote to you. He also urged correspondence to people in other countries as a means of promoting greater understanding among the people of different nations.

The slogan of this year's event, as indicated on more than 200,000 banners, is "Letters are Links to Friendship." The display materials will appear on post office bulletin boards, and rural carrier vehicles, as well as in various schools and libraries.

### ALL OVER—IN A MATTER OF SECONDS

Yes, it was all over in a matter of seconds. Weary technicians had been pouring over blueprints, checking installations, making tests. Then the zero hour arrived. A few minutes before the red second hand moved across the deadline on the clock, someone said, "We're ready." Each moved to his assigned place, the clock ticked off the minutes, then the seconds—a signal was given and the old telephone cable was cut. For a few short seconds Hamlin was isolated. There was no telephone service.

Then the second signal was given and the technicians went to work. They removed small pieces of plastic, called blocking tools, from the telephone relays. The relays were ready—and dial service came to Hamlin at 1:01 a.m. Sunday morning—August 21.

I guess some of you folks were ready too. Shortly after the dial telephones became a reality in Hamlin a lot of people tried them out. Telephone equipment in a central office makes a click, click, click, noise when calls are being made—and that Sunday morning—just after the changeover—the clicks were steady and loud as you tried out your new dial telephones.

Many of our specialists stayed up the rest of the night—checking and re-checking again to make sure that everything was working just as it should. Some of the rest of us went home after assuring ourselves that everything was in good hands. As I walked out the door I couldn't help but think of the months of work that it took—and then it seemed to be all over in a matter of seconds. I could hear the click, click, click of the switches as I closed the door. No doubt about it, dial telephones had come to Hamlin.

### OPEN HOUSE

I guess you know that we're mighty proud of all that new dial telephone equipment and we want a chance to show it to everyone here in Hamlin. About the best way to do it would be to hold open house and invite all of you in for a visit. Well, that's exactly what we plan to do—just as soon as we can. I'll let you know as soon as our plans are set—and send each of you a personal invitation.

"BACK TO SCHOOL — DRIVE CAREFULLY" For a time each fall, these phrases are probably the most noticed and carefully followed instructions in Hamlin.

"Back to school—drive carefully" is such a sensible thought that it's a pity to limit its use to a few weeks each fall! For the small fry, "Back to School" is a months-long activity; for grownups, when is there a time NOT to "drive carefully?"

Call by number. It's twice as fast.
